COMPANY PROFILE

Rosewood has served Western Australia's aged community since 1953. The company began as an infirmary and was the founding institution behind Meals on Wheels.

Our longevity in the industry stems from a genuine care and compassion for the elderly and joy in helping them get the most out of their lives.

We operate a premium aged care facility conveniently located in Leederville. The residence is located in close proximity to the city, public transport facilities, entertainment and shopping precincts.

We cater for complex medical needs within specialist environments and provide diverse services and facilities to meet the challenges of an ageing population. Rosewood residents live in high-quality, safe, secure accommodation and have access to a range of health services, amenities and recreational resources, while enjoying a genuine community living.

Our staff foster a culture of respect, dignity and compassion that empower residents to live the best life possible. We encourage them to maintain connections with their family and friends, and participate in social and recreational activities.

Rosewood hosts regular outings for residents, as well as planned in-house activities and special events to create a sense of companionship and independence.

With increasing demand for places in our homes, we are creating a new community at our West Perth site.
