COVID-19 VACCINES

One of our Quality Managers, Marianne, received her COVID-19 vaccine on the 12th of April. She was very excited to be able to protect our residents, other vulnerable members of the community, and her unborn baby.

On the 6th of April, Rosewood successfully completed the second clinic for the residents administration of the COVID vaccine! The clinic went smoothly with the help of all allied health, care staff, administrative staff and families. Special thanks to Pauline Tan, our infection control lead who liaised with the vaccination team and helped to coordinate on both days. Rosewood was also chosen to feature in a news article for Channel 7, do watch it if you have not already!

YMCA GUMTREES

Prior to COVID-19, children and staff from YMCA Gumtrees, a local before and after school centre, would visit our residents on pupil free days for intergenerational activities. The visits were such a success and our residents obviously left a lasting impression on the students as they've been making craft projects for Rosewood since restrictions have prohibited them from visiting. Most recently they delivered an Easter poster wishing all our residents a happy and blessed holiday. To show our appreciation for their ongoing generosity our Rosewood residents and therapy assistants recently delivered home-made pot plants to the YMCA Gumtrees centre. We hope to be able to welcome their staff and students back to Rosewood in the near future!

ROSEWOOD WAY CHAMPION

RAJI OONNOONNI

Raji is always professional, caring, demonstrates excellent teamwork. He is a shining example of the Rosewood Way and we are lucky to have him on the team. Well done Raji.

Congratulations!

RESIDENT DEFINITIONS

At the last resident meeting, we workshopped the definitions of some key words that are important for providing the best possible care. Residents came up with some fantastic suggestions, which are summarised below.

DIGNITY

- Respect
- Not bullying
- Good communication
- Not laughing at others' expense
- Knocking on doors and waiting to hear "come in" before entering
- Not having male carers if you've

requested female carers (this is not always possible but we do our absolute best to meet it)

RESPECT

- Accepting people at face value
- Taking the time to really listen
- Allowing you to do as much as possible for yourself
- Giving couples time alone together

- Knocking on doors and waiting to hear "come in" before entering
- When returning from an appointment, being met and taken back to one's room (it's a big facility and it's easy to get lost if you're not on your own floor)

CULTURAL SAFETY

- Embracing our multicultural staff and residents

CLINICAL NURSE MANAGER

VANICE LEE

Vanice is our new Clinical Nurse Manager. Vanice was born in Malaysia & grew up in Ipoh, on the west coast of Peninsular Malaysia. Vanice moved to Australia in 2009 and lived in Sydney. She worked as Carer in the beginning of her nursing career, then became a Registered Nurse. She worked as Clinical Care Coordinator and Care Manager in Sydney Homes, then moved from Sydney to Perth in April 2021.

Vanice is planning to continue studying Master of Gerontology this year, and in her spare time likes to play the piano and go bush walking.

Welcome to the Rosewood Family Vanice!
