Style the Mannequin

Styling the mannequins was a fun, hands on and engaging group activity. Combining elements of fashion, design, and memory recall, it was an ideal activity to encourage creativity, interaction and cognitive stimulation. The belly laughs were a great sign that everyone was enjoying themselves.

Joy of Cooking Together

The residents look forward to cooking activities, and this month they came together to make delicious baked stuffed tomatoes topped with cheese and herbs, as well as rich Nutella brownie chocolate treats. Everyone took turns during the preparation and enjoyed sharing the tasting experience afterwards.

Generations: Wise Friends, Little Explorers

Friendships have blossomed and everyone looks forward to seeing each other, especially their special older or younger person, with whom bonds have formed. The alfresco area outside the Magnolia Lounge is a favourite meeting spot for this enthusiastic group of 4-year-olds! It's where stories are shared, laughter sounds, and interesting intel is exchanged, like what the kids want to be when they grow up.

The Great Outdoors

There's nothing quite like a dose of fresh air and sunshine to lift the spirits and our residents make the most of it! With the support of staff and friends, regular strolls along Cleaver Street or around the block are a favourite way to stay active, social, and connected with the community.

A simple outdoor stroll can boost wellbeing and encourage healthy movement. Exercise, friends and fresh air – the perfect combination!
